

September 2021 BoD Meeting Website Report

Google Group: I continue to update the Google Email Group as per instructions from President Velinda Brown.

PSA Website: I was able to connect with Roger Biggs (volunteer helper for our website) and got an answer to a few questions I had.

- **Website Back-ups:** Host Gator provides full back-up to our website.
- **HTTP/HTTPS:** Host Gator provides free SSL (security socket layer). If we were ever to allow commerce on our site, we would need to upgrade our SSL.
- **PSA Document Repository:** Google Drive provides 15 GB storage. I recommend that I research how to make it the “official repository” (as opposed to the website) for the Association’s permanently retained historical records. (Of course, they will still be on the website, as well.)
- **Repurposing Meeting Dates/Times Page:** Redundant? I would like to remove dates of former meetings (not relevant) and only post currently scheduled meetings for the year.
- **Calendar for webpage:** I hope to speak to Roger Biggs this week about adding a Calendar page to our website.

Respectfully submitted,

Susan M. Lord
