

Updates since November 2025 meeting

- 1) - Before the caretakers left, there was a report of otters digging in the peninsula, I have been monitoring and it got quite extensive. Saturday Kip brought in equipment, and we dug out the undermining to backfill and stabilize the area.

- 2) Other than this the park has been pretty quiet.
- 3) I saw some reports of people using the park for dogs and not cleaning up after them. This is unfair to the others that have use of the facility to have to watch out or clean up. If anyone knows anything about this please let us know. Also if it continues to happen please reach out with dates and we can possibly look on the cameras to find the culprit. Failure to clean up after your pet will result in a loss of the privilege of having your dog in the park. See page 10 of PSA rules and guidelines.
- 4) Caretakers' winter contract was executed.
- 5) Caretakers' summer 2026 contract has been executed as well.
 - Jerry and Sue, start their summer contract on March 15th.
- 6) We will be making a list of park priorities for the upcoming 2026 season. If there are any items that you feel need to be evaluated, please let me know via email.

[If anyone is interested in being on the facilities committee, please let me know.](#)

Special Thank you again to all the volunteers for helping to keep the facilities nice.
